

## **Primary 1 2021/2021 Topic overview**

### **Autumn Term 2021 Me and My Family**

During this term we will explore all about 'me'. We will explore how we move our bodies and use our bodies to do different things. We will do lots of activities about our families and hopefully be able to have our families in to visit! We will learn about how we stay healthy including how we can eat healthy foods and make healthy snacks and how we can exercise. We will enjoy lots of different books including stories and factual books about me, families and about our bodies.

We will be encouraged to express our preferences; what we like as well as what we don't like and the different ways in which we can say these.

### **Spring Term 2022 Weather**

During this term we will explore all the exciting different kinds of weather including rain, sun, wind, snow, thunder. Hopefully during this term we will get to see a range of weather and be able to experience some of them first hand. We will have lots of fun exploring this through a range of science activities. We will enjoy exploring stories, poems and factual books about the weather and explore different kinds of weather using our senses. We will learn about clothes we need to wear for different kinds of weather.

### **Summer Term 2022 Making Things Happen**

In this term we will explore and learn about the various ways in which we can make things happen. We will use our bodies to cause effects on our environment. We will explore moving, pushing and pulling. We will learn about how different things move, ranging from ourselves and the different ways in which we can move our bodies to exploring different vehicles. We will enjoy lots of water play and how we can make things move on and in water.

We will explore different ways in which we can use technology to make things happen.
